# **CURRICULUM FOR UNDERGRADUATE COURSES**

## **UNDER CHOICE BASED CREDIT SYSTEM (CBCS)**

The CBCS provides an opportunity for the students to choose courses from the prescribed courses comprising core, elective and skill based courses. The courses can be evaluated by following the grading system, which is considered to be better than the conventional marking system. Therefore, it is necessary to introduce uniform grading system in higher education in India. This will benefit the students to move across institutions within India. The uniform grading system will also enable potential employers to assess the performance of the candidates. In order to bring uniformity in evaluation system and computation of the Cumulative Grade Point Average (CGPA) based on student's performance in examinations, the UGC has formulated the guidelines to be followed.

### **Outline of Choice Based Credit System:-**

1. **Core Course / Discipline Specific Course (DSC):** A course, which should compulsorily be studied by a candidate as a core subject is termed as a Core course. Core course is also referred as Discipline Specific Course (DSC). The course, designed under this category, aims to cover the basics that a student is expected to imbibe in that particular discipline.
2. **Elective Course:** Generally a course which can be chosen from the pool of courses and which may be very specific or specialized to the discipline/ subject of study or which provides an extended scope or which enables an exposure to some other discipline/subject/domain or nurtures the candidate's proficiency/skill is called an Elective Course.

**Discipline Specific Elective (DSE) Course:** Elective courses which may be offered by the main discipline/subject of study is referred as Discipline Specific Elective.

**Dissertation/Project:-** An elective course designed to acquire special/advanced knowledge, such as supplement study/support study to a project work. A candidate studies such a course on his own with an advisory support by a teacher/faculty member is called dissertation/project.

**Generic Elective (GE) Course (for B.A./B.Com. regular courses):** An elective course chosen from an unrelated discipline/subject, with an intention to seek exposure beyond discipline/s of choice is called a Generic Elective. A core course offered in a discipline/subject may be treated as an elective by other discipline/subject and vice versa and such electives may also be referred to as Generic Elective.

3. **Ability Enhancement Courses /Competency Improvement Courses/Skill Development Courses/Foundation Course:**

The Ability Enhancement (AE) Courses are of two kinds: Ability Enhancement Compulsory Course (AECC) and Ability Enhancement Elective Course (AEEC). “AECC” courses are based on the content that leads to knowledge enhancement. They are: (i) Environmental Science, (ii) English/MIL (Modern Indian Language) Communication (mandatory for all disciplines). AEEC courses are value-based and/or skill- based and are aimed to provide hands-on-training, competencies, skills, etc.

**Ability Enhancement Compulsory Course (AECC):** Environmental Science, English Communication/MIL Communication.

**Ability Enhancement Elective Course (AEEC):** These courses may be chosen from a pool of courses designed to provide value-based and/or skill-based instruction. Project work/Dissertation is considered as a special course which involves application of knowledge to analyze and explore the real life situation and difficult problems. A Project/Dissertation work would be of 6 credits. A Project/Dissertation work may be given in lieu of a discipline specific elective paper.

4. **Practical/Tutorials:** (One each with every core and discipline/generic specific elective paper).

## **Regulations Choice Based Credit System (CBCS):-**

4. It measures the volume of the content to be delivered in the course.
5. Credits of a course indicate the weight age of a course for the calculation of Grade Point Average (GPA).
